

Letter of Interest

To
The Hiring Team,

I am writing to express my interest in upcoming opportunities for the role of *Java Developer / Software Developer* at your organization. With solid knowledge in Java, Spring Boot, JPA, Spring Boot Security, JDBC, and Web Development, along with hands-on project experience, I am highly motivated to begin my professional journey with a team that encourages growth and innovation.

My academic background in Computer Science Engineering with 7.53 CGPA and practical exposure through my full-stack project have given me a strong understanding of backend development, database design, caching, performance testing, and deployment using Docker. I enjoy solving technical problems and continuously upgrading my skills.

I am particularly interested in your company because of its reputation for quality, innovation, and supportive learning environment. As a fresher, I am driven, adaptable, and ready to contribute to meaningful projects while learning from experienced developers.

Thank you for reviewing my interest. I would be happy to discuss how my skills and enthusiasm align with your team's goals.

Warm regards,
Aniket Gawande
